

HEAVY EQUIPMENT

SINGLE DRUM ROLLERS

SOIL COMPACTOR SERIES

AMMANN

ELIMINATE PASSES

Compaction is about reaching your goals in the fewest passes possible. Ammann soil and asphalt compactors provide that needed efficiency through industry-leading technology and an ability to direct more force toward the target and away from the machine. The result: quality results in fewer passes and a more productive and profitable jobsite.

INTRODUCTION

- The new family of single drum rollers follows the latest solid power design and provides excellent operator comfort and unique compaction output and productivity.
- The line consists of machines ranging from 7t to 25t and utilising the latest Cummins and Deutz Tier 4i/EU Stage 3B or Tier 3/EU Stage 3A engines.

DRIVE TRAIN

Do you make a living on challenging jobsites with tough underfoot conditions and steep grades? These drive options can help.

DRIVE (D)

- For machine with smooth drum and diamond tyres
- Gradeability of 45 per cent

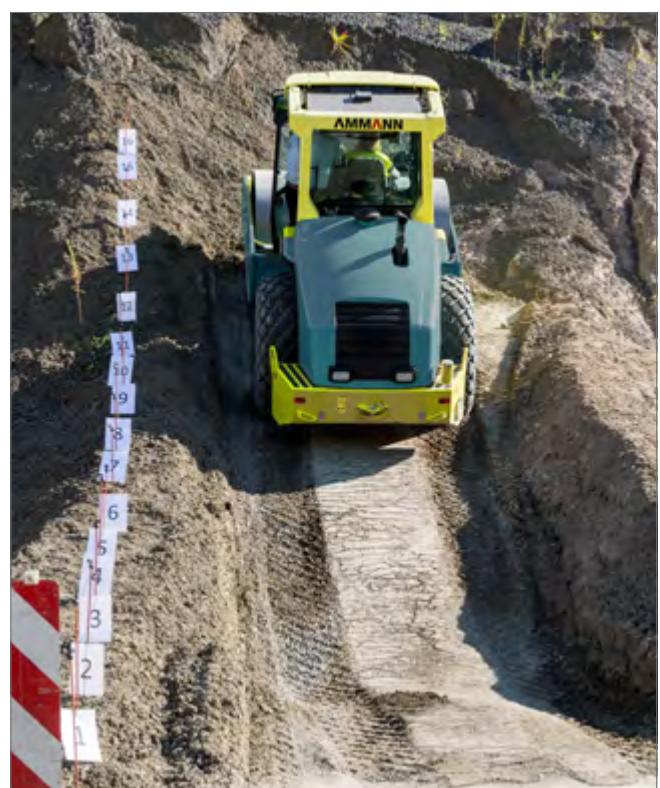

HD DRIVE (HD)

- D propulsion plus reinforced rear drive, wheel ballast and Ammann Traction Control (ATC)
- Gradeability of 50 per cent

HT DRIVE (HT)

- HD propulsion plus reinforced front drive

**“Built for traction
and efficiency.”**

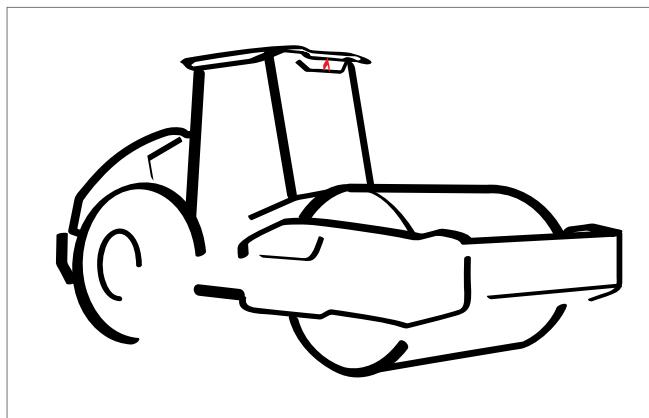

“ Ammann Soil Compactors provide industry-leading compaction outputs regardless of the application.”

YOUR BENEFITS

BOOST YOUR PERFORMANCE ON ANY JOBSITE

It's hard to know what the next job will bring: clay, sand or something in between? Ammann Soil Compactors provide industry-leading compaction outputs – whatever the application. Your jobsite conditions will change, but you will always have a need for productivity and performance.

DESIGN

- Comfort built into cabs to improve operator productivity and reduce fatigue
- Optimal visibility to front, sides and rear
- Control switches located on the dashboard for convenience
- Multifunctional display provides essential operating information
- Low sound levels for improved comfort

COMPACTION TECHNOLOGY

- Available with proprietary Ammann Compaction Expert (ACE) systems ACE^{force}, ACE^{pro} and ACE^{eco}, depending on models
- Identifies uncompacted spots
- Displays and evaluates all measured values including load-bearing capacity of material, number of passes and frequency/amplitude values

HIGH COMPACTION OUTPUT

- Industry-leading compaction output
- Tried-and-tested Ammann vibratory system
- Varied vibratory and amplitude settings that drive the energy into the material and away from the operator
- Machine design to properly direct dynamic forces

NO REAR AXLE

- Features individual movement for traction
- Has low centre of gravity for high stability
- Improves manoeuvrability
- Enhances visibility and safety
- Offers easy service access

WIDE RANGE OF OPTIONS

- Available with several engine types to match your local requirements
- Additional options available that fit your specific needs

COMPACTION OUTPUT

MEETING AND MEASURING GOALS

All Ammann rollers feature vibratory and amplitude systems that help you quickly reach compaction targets. Optional Intelligent Compaction systems can provide even more efficiencies.

ASC 30 AND ASC 50 VIBRATORY SYSTEMS

- Single-amplitude system
- PD drum available for ASC 30
- Smooth or PD drum and smooth shells optional for ASC 50

INTELLIGENT COMPACTION OPTIONS

- ACE^{pro}, which provides compaction measurement, automatic control and a documentation system
- ACE^{force}, which can utilise GPS products to provide mapping and operator guidance while measuring compaction
- ADS (Ammann Documentation System), which records and evaluates all relevant compaction process data
- GPS mapping, which adds information to ACE documentation and offers a location view
- ACI^{eco} (Ammann Compaction Indicator), which measures relative compaction value and compaction progresses with every pass

ASC 50HD-ASC 250 VIBRATORY SYSTEMS

- High compaction performance and quality
- Heavy-duty 2-stage vibrator
- Simple system for adjusting amplitude/frequency by selection of vibratory shaft rotation direction

BUILT FOR VERSATILITY

ROLLERS EXCEL IN VARIED APPLICATIONS

Ammann offers many models of rollers so their varied weights and sizes can help you succeed in everything from tight spaces to wide-open jobsites. Easily adjusted amplitude and frequency bring additional versatility once your crew is rolling.

LIGHT COMPACTOR APPLICATIONS

- Pipeline construction
- Social and industrial development areas
- Structure backfill work
- Confined work spaces
- Airport construction
- Electric cable construction
- Dumpsite construction
- Sub-base of roads

MEDIUM AND HEAVY COMPACTOR APPLICATIONS

- Motorways
- Railways
- Airfields
- Rock fill dams
- Industrial zones
- Harbours
- Residential areas

APPLICATION

TOP LAYERS

- (ASC not used)

SUB-BASES

- **Gravel mixtures:** recommended lift thickness max. 250 cm (9.84 in)
- **Sub-base course:** recommended lift thickness max. 35 cm
- **Sub-grade:** not recommended

TOP LAYERS

- (ASC not used)

SUB-BASES

- **Gravel mixtures:** recommended lift thickness max. 30 cm
- **Sub-base course:** recommended lift thickness max. 50 cm
- **Sub-grade:** recommended lift thickness max. 100 cm

TOP LAYERS

- (ASC not used)

SUB-BASES

- **Gravel mixtures:** recommended lift thickness max. 400 cm (15.75 in)
- **Sub-base course:** recommended lift thickness max. 60 cm
- **Sub-grade:** recommended lift thickness max. 170 cm

OPERATOR COMFORT AND CONTROLS

DESIGNED FOR SUCCESS

Ammann rollers are built to keep operators comfortable, helping boost productivity throughout a long shift. This attention to design also helps operators of all experience levels succeed.

CABS AND PLATFORMS

- Spacious
- Comfortable
- Exceptional visibility
- Easy to operate
- Intuitive control and handling
- Easy-to-reach control switches

MAINTENANCE MADE EASY

MAKING THE MOST OF YOUR TIME

Extended service intervals limit the amount of routine maintenance that is required of all Ammann equipment. When it is time for preventive maintenance, service points are easy to reach – helping your crew quickly complete the work. Robust components minimise unplanned interruptions.

KEY FEATURES

- All service points reachable from ground
- E-hydraulic tilt cab and hood standard on some models
- Filling and draining points centralised for easy and fast fluid exchange
- Convenient access to all filtration elements
- Cleanable, accessible cooler

OPTIONS

THE NEXT STEP

Finding the right roller is a great start. Next choose from a broad range of options that provide you with a machine that feels custom-made.

LIGHT COMPACTORS

- 4-way dozer blade (ASC 30)
- PD drum for ASC 50
- Smooth drum shell kit

- Open platform
- Cabin
- Backup alarm

- Beacon
- Custom color

4-WAY DOZER BLADE

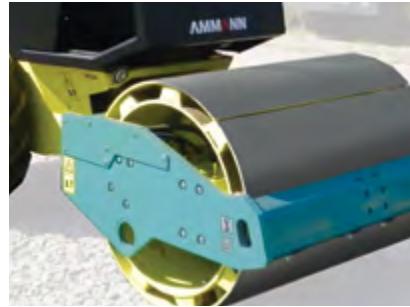

PD DRUM FOR ASC 50

OPEN PLATFORM

CABIN

SMOOTH DRUM SHELL KIT

MEDIUM AND HEAVY

- ACE^{pro}/ACE^{force}
- ACE GPS monitoring
- PD drum (or PD shell kit)
- Hardox pads for PD drum
- ATC/HD/HT versions
- ROPS/FOPS
- Cabin
- Air conditioning
- Radio with CD
- Ammann toolkit
- Dozer blade
- Road lighting
- Warning beacon
- Backup alarm
- Telematics-ready

ACE^{pro}/ACE^{force}

GPS MONITORING

CABIN

PD DRUM (OR PD SHELL KIT)

TRAINING

ENHANCE YOUR PERFORMANCE

The Ammann International Training Centre in the Czech Republic is our training headquarters.

If you are not able to visit the International Training Centre, Ammann will bring the training to your business or even a jobsite of your choosing.

MACHINE TRAINING MODULES

Modules help you organise your team's training efforts. For example, you can have comprehensive lessons that put you on the path to expertise regarding a single machine. Or, if you prefer, your crew can instead broaden its general knowledge.

And if you want to become an expert on the entire product line, the modules can accommodate that, too.

MAIN COURSES

These are the most frequently requested lessons and focus on one machine line.

SUB COURSES

These courses focus on a single machine and typically run for 2 days, allowing a second (or even third) such course to be taken during a week at the training centre.

PRODUCT COURSES

Important information regarding Ammann compaction machines is at the core of these classes. The training includes correct operation and basic maintenance.

ADMINISTRATIVE COURSES

Participants in this training learn effective utilisation of warranty claims, spare parts purchase orders, training, requests for technical support and service tips. Those who take these classes will learn to use all Ammann technical publications and administration tools.

COMMISSIONING COURSES

In this training, participants learn maintenance and proper methods for organising a commissioning of Ammann compactors and asphalt pavers.

INTELLIGENT COMPACTION COURSES

Participants learn about the ACE^{force}, ACE^{pro} and ACE^{plus} systems used in Ammann machines. Those who take the class will learn to properly operate, maintain, diagnose and repair ACE systems. The offerings include ACE iii System for Soil Compactors, which is focused on ASC rollers, and ACE iii System for Asphalt Compactors, which discusses systems on ARP 95, ARX 90 and ARX 110.

SERVICE

A NETWORK TO SUPPORT YOU

No matter where you are, Ammann-trained technicians and parts are nearby. Ammann dealers provide well-trained service technicians who can help you, whether it's an emergency or time for preventive maintenance. The vast Ammann network ensures there is a nearby technician who understands your language and your technical needs. Parts availability and ease of ordering are always Ammann priorities.

SERVICE VIDEOS

Sometimes a video tells the story best. That's why you'll find a variety of service videos that walk you through service and maintenance processes.

Many maintenance kits feature QR codes that link to videos with helpful demonstrations that walk you or your technician through the process. The videos tell the story without dialogue so customers anywhere in the world can understand.

HOTLINE SUPPORT

Ammann experts are ready to answer your technical questions 24 hours a day, seven days a week. The hotline team is highly trained and experienced. Representatives can talk you through the challenges – in various languages – to help keep your machine productive.

**“Ammann-trained technicians, parts availability and ease of ordering are Ammann priorities.
For more information visit WWW.AMMANN-GROUP.COM.”**

SPARE PARTS

You can only earn money when your equipment is working. That's why Ammann does everything possible to ensure you have the parts where and when you need them. Those efforts include easy online ordering to avoid confusion and enable tracking, and efficient logistics and availability to help parts reach you quickly.

WEARING KITS

Some machines handle abrasive materials in demanding applications. While wear is inevitable, downtime can be limited. Wearing kits make replacement of these parts efficient and cost-effective. All the necessary parts – big and small – are in a single box to keep you organised and efficient and to ensure the machines are quickly back up and running.

MAINTENANCE KITS

Preventive maintenance is crucial to efficient operation and service life of machines. The easier the maintenance, the more likely it is to be completed. Maintenance kits make the upkeep simple. Parts associated with a particular maintenance process are in a single box with a single part number.

"Service kits ensure that every part is there when you need it, while emergency kits prevent a little challenge from becoming a big one."

REPAIR KITS

Repair kits are available for more in-depth repairs, typically those that require the machine to be transported from the jobsite. The repair kits feature all parts – from the biggest components to the tiniest nut and bolt – needed for a particular repair. The kits ensure everything is there when you need it, thereby preventing the absence of a single, small part from keeping a productive machine from working.

EMERGENCY KITS

Emergency kits prevent little frustrations from becoming bigger issues that can shut down a machine and even a jobsite. These kits include parts such as switches, fuses and valve coils that are simple and fast to change yet still can cause significant problems if not operating properly. The kits easily fit in the trunk or bed of a vehicle so they're on hand when needed. A crew-member with a bit of technical knowledge can handle this work on the jobsite. These repairs take 2 hours or less.

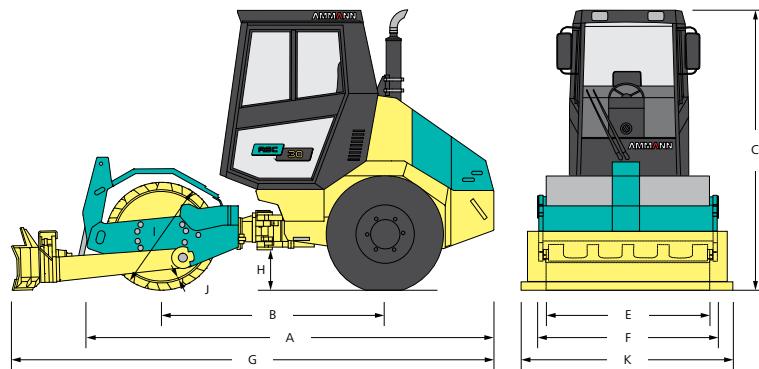

PROSPECT WITH ALL KITS

We have a prospect with all kits, and their part numbers are available for you. Just contact your parts consultant and have a digital or hardcopy sent to you.

ENGINE COMPLIES WITH EMISSION REGULATIONS	EU Stage IIIA, U.S. EPA Tier 3	EU Stage IIIB, U.S. EPA Tier 4i	EU Stage IIIA, U.S. EPA Tier 3	EU Stage IIIB, U.S. EPA Tier 4i	EU Stage IIIA, U.S. EPA Tier 3	EU Stage IIIA, U.S. EPA Tier 3

WEIGHT & OPERATING CHARACTERISTICS

OPERATING WEIGHT	14 490 kg (31 940 lb)	14 490 kg (31 940 lb)	16 170 kg (35 650 lb)	15 900 kg (35 050 lb)	20 780 kg (45 810 lb)	25 520 kg (56 260 lb)
MAXIMUM WEIGHT	16 670 kg (36 750 lb)	16 650 kg (36 710 lb)	17 190 kg (37 900 lb)	16 860 kg (37 170 lb)	23 230 kg (51 210 lb)	26 770 kg (59 020 lb)
STATIC LINEAR LOAD	–	–	–	–	–	–
MAX. TRANSPORT SPEED	10.1 km/h (6.28 MPH)	12.2 km/h (7.58 MPH)	9.5 km/h (5.9 MPH)			
MAX. WORKING SPEED	4.6 km/h (2.86 MPH)	3.9 km/h (2.42 MPH)	3.6 km/h (2.24 MPH)			
CLIMBING ABILITY	45 %	45 %	30 %	50 %	–	50 %
TURNING RADIUS INNER (EDGE)	3715 mm (146.3 in)	3900 mm (153.5 in)	3815 mm (150.2 in)			

SPECIFICATIONS

SOIL COMPACTORS – SMOOTH DRUM

MACHINES

	ASC 200 Tier 3	ASC 200 Tier 4f	ASC 220 Tier 3	ASC 220 Tier 4f
--	-------------------	--------------------	-------------------	--------------------

MISCELLANEOUS

BRAKES OPERATING	Hydrostatic	Hydrostatic	Hydrostatic	Hydrostatic
BRAKES PARKING	Multiple-disc spring brake	Multiple-disc spring brake	Multiple-disc spring brake	Multiple-disc spring brake
BRAKES EMERGENCY	Multiple-disc spring brake	Multiple-disc spring brake	Multiple-disc spring brake	Multiple-disc spring brake
FUEL TANK CAPACITY	310 l (82 gal)			
VOLTAGE	24 V	24 V	24 V	24 V

COMPACTION FORCES

FREQUENCY I	34 Hz (2040 VPM)			
FREQUENCY II	27 Hz (1620 VPM)			
FREQUENCY ACE MIN./MAX.	–	–	–	–
AMPLITUDE I	1 mm (0,039 in)			
AMPLITUDE II	2 mm (0,078 in)			
AMPLITUDE ACE MIN./MAX.	–	–	–	–
CENTRIFUGAL FORCE I	300 kN (67442,7 lbf)			
CENTRIFUGAL FORCE II	375 kN (84303,4 lbf)			
CENTRIF. FORCE ACE MIN./MAX.	–	–	–	–

ENGINE

MANUFACTURER	DEUTZ TCD 6.1 L6	DEUTZ TCD 6.1 L6	DEUTZ TCD 6.1 L6	DEUTZ TCD 6.1 L6
POWER ACCORDING TO ISO 3046-1	160 kW (214.6 HP)/2200 rpm	160 kW (214.6 HP)/2200 rpm	160 kW (214.6 HP)/2200 rpm	160 kW (214.6 HP)/2200 rpm
MAXIMUM TORQUE	694/1600 Nm/rpm	694/1600 Nm/rpm	694/1600 Nm/rpm	694/1600 Nm/rpm
ENGINE COMPLIES WITH EMISSION REGULATIONS	EU Stage IIIa, U.S. EPA Tier 3	EU Stage IV, U.S. EPA Tier 4f	EU Stage IIIa, U.S. EPA Tier 3	EU Stage IV, U.S. EPA Tier 4f

WEIGHT & OPERATING CHARACTERISTICS

OPERATING WEIGHT	19750 kg (43541,3 lb)	19750 kg (43541,3 lb)	22050 kg (48611,9 lb)	22050 kg (48611,9 lb)
MAXIMUM WEIGHT	26000 kg (57320,2 lb)			
STATIC LINEAR LOAD	58,6 kg/cm (327,9 lb/in)	58,6 kg/cm (327,9 lb/in)	65,2 kg/cm (365 lb/in)	65,2 kg/cm (365 lb/in)
MAX. TRANSPORT SPEED	12(10,5) km/h (7,5(6,5) mph)			
MAX. WORKING SPEED	7(5,8) km/h (4,4(3,6) mph)			
CLIMBING ABILITY	55(60)%	55(60)%	55(60)%	55(60)%
TURNING RADIUS INNER (EDGE)	4370 mm (170,4 in)	4370 mm (170,4 in)	4380 mm (170,8 in)	4380 mm (170,8 in)

SOIL COMPACTORS – PADFOOT DRUM
