

YANMAR SV26

£POA

Discover first-class performance in a surprisingly compact package, perfect for urban work and landscaping, even in the most challenging of environments. Excellent stability and low ground pressure ensures efficiency on all types of terrain while decreasing soil degradation. The largest cab in its class and clever design delivers real operator comfort, while an advanced hydraulic system offers fast performance with real control. A complete protection system boosts durability, and fuel consumption is remarkably low as well.
