

YANMAR SV60-6B

£POA

A winning combination of technology and innovation, the SV60-6B offers the performance of a midi excavator while reaping the benefits of a compact excavator. Designed to work effectively on a wide variety of sites, it combines compactness, power, versatility, reliability and durability.

Featuring numerous design touches for operator safety and comfort, advanced standard equipment includes a rear-view camera, a progressive VIPPS hydraulic system, an adjustable air-suspended seat, and automatic two-speed drive motors.
