

# YANMAR ViO33-6

## £POA

The ViO33-6 is designed to provide you with true peace of mind, especially in urban environments where space is limited. As a true zero tail swing machine with a low swing radius, it offers exceptional safety benefits, while advanced ergonomics ensure operator comfort as well. It provides outstanding performance, even while greatly reducing fuel consumption and emissions.

Other advantages include a ViPPS hydraulic system for balanced smoothness, plus a unique protection system to prolong its working life.
