

# YANMAR ViO50-6B

## £POA

The ViO50-6B is designed to provide true peace of mind, especially in urban environments where space is limited, and when working along walls. This zero tail swing machine also features a ViPPS hydraulic system for smooth, powerful performance. Numerous design features assist with easy maintenance, as does the optional SmartAssist Remote. All undercarriage components have been upgraded to further increase the durability of this rugged machine.
